

Monica Garcia

Business Partner-PeopleOps

About Me:

I have been in the HR/PeopleOps field for over 25 years with the last almost 15 years being at Hilltop.

I previously worked for a home builder and chose to leave when my moral and ethical standards no longer aligned with the organization.

That is when I discovered Hilltop. Having grown up in Western Colorado I was familiar with what I believed Hilltop was-but then I quickly learned Hilltop was so much more than I realized.

I am definitely a people person who values relationship and connection. I am passionate about work-life balance and put 100% effort into both my professional and personal life.

The part of my job that I value the most are helping others discover their potential and helping them grow as a human.

Why I Mentor:

I enjoy mentoring others because I have had numerous mentors throughout my career.

People who believed in me and helped me see the potential in myself when I did not see it.

I enjoy being able to give others that opportunity as well to be a sounding board who may have advise they haven't heard from anyone else.

Fun Facts

I love sports and sporting events. My kids grew up playing every sport they could and we traveled year-round with each of them competing in their respective sports.

I was always the "Team Mom" who hosted all the team dinners and enjoyed every minute of it!

My kids friends still walk in my house without knocking and call me "Mom-ica".

Hobbies and Interests

I am a mom first and foremost. I have three grown children and enjoy any time I get to spend with them. I love to travel with my family-mostly to warm places! Mexico and Arizona in the winter are our favorite places to relax.

I grew up on a farm and still live on that same land where my husband and I help my 79 year old dad manage the hobby farm he has had since I was a baby. We love our pets-a 13 year old YorkiePoo and a 3 year old GoldenDoodle.

We also recently inherited 8 chickens! Who knew chickens were such social and funny animals-Phyllis and Becky are my favorites because they love to "spill the tea" every day!
